SUMMARY

Highly motivated and quick-learning Software Engineer with 2.5 years of experience in fullstack development. Proven ability to write clean, maintainable code and excel in both teamwork and independent projects. Possesses strong leadership and problem-solving skills.

TECHNICAL SKILLS

- **Frontend**: JavaScript, TypeScript, React.js, Redux Toolkit, RTK Query, React Query, React Hook Form, React Router DOM, Tailwind CSS
- **Backend**: Node.js, Express.js, Restful APIs, Appwrite Services
- **Database**: MongoDB (Mongoose)
- **Tools**: VS Code, eclipse IDE, IntelliJ IDEA, Postman, Thunder Client, Git, GitHub, GitLab
- **Other**: SAP Commerce Cloud (Hybris), SAP Spartacus, SAP Emarsys Cloud, SAP Customer Data Cloud, SAP Sales Cloud, Angular, Core JAVA

EXPERIENCE

Software Engineer - [@msg global solutions](#) [Bangalore] [Jan/03/2022 to June/04/2024]

- Developed fullstack functionalities for SAP Financial Services Accelerator (E-commerce solution) using SAP Commerce Cloud (backend) and SAP Spartacus (Angular frontend).
- Successfully migrated client's marketing tool to SAP Emarsys Cloud, automating workflows with automation programs and integrating with various APIs for contact management, email campaigns and more.
- Implemented functionalities for Health & Pet Products, renters' claims, Savings changes, Travel chatbot, and ESG data capture.

PROJECTS

The Movies Vault (MERN) | [GitHub](#) | [Live](#)

- Scalable movie application using redux toolkit with RTK query, user authentication, CRUD operations, filtering by interests, movie browsing, user reviews, profile management, admin dashboard and real-time subscriber count.

TURBO-GPT (MERN) **|** [GitHub](#) | [Live](#)

- Scalable real-time AI chat application using material UI, contextAPI, openAI API with secure authentication and user chat history management

Tomato (MERN) **|** [GitHub](#) **|** [Live](#)

- Fullstack food delivery application with separate admin and client interfaces, order management, food item management, secure checkout and Stripe integration for payments.

BlogBytes (React.js, Appwrite) **|** [GitHub](#) **|** [Live](#)

- Fullstack Blog site with user authentication, post CRUD operations, redux, react query, rich text editor and scalable backend services

Bookstore (MERN) | [GitHub](#) **|** [Live](#)

- Simple bookstore application with CRUD operations for managing book entries in table and card views

Weather App (React.js) **|** [GitHub](#) **|** [Live](#)

- Weather application fetching live weather information using react query based on city searches with an open-source API.

EDUCATION

- BE, Electricals & Electronics Engineering, SIET Engineering College
- 12th, Science, PDJ PU College
- 10th, PDJ High School
